First Things, First…Some Important Considerations

- What is meant by disability?
- What are some of the unique characteristics of the disability community?
- How can a CDFI have a positive impact in the disability community?
- Other ideas?

Asset Development

Asset Development is a series of strategies that provide long-term benefits and have the potential to help people with disabilities improve their economic status, expand opportunities for community participation, and positively impact their quality of life experience.

Examples:
- Achieving a Better Life Experience Act (ABLE)
- Financial Education
- Individual Development Accounts
Assistive Technology

Assistive technology (AT) is defined as “any item, piece of equipment, or product system, whether acquired commercially, modified, or customized, that is used to increase, maintain or improve functional capabilities of individuals with disabilities.”

AT services include such activities as: evaluation, selection, designing, construction, training and repair.

Technology-Related Assistance for Individuals with Disabilities Act (P.L. 100-407)

Pennsylvania Assistive Technology Foundation (PATF)

PATF is Pennsylvania’s Alternative Financing Program (AFP), as designated by the federal Assistive Technology Act (AT Act). PATF is also a state and federally-certified Community Development Financial Institution (2012).

Mission: To provide education and financing opportunities for people with disabilities and older Pennsylvanians, helping them to acquire assistive technology devices and services that improve the quality of their lives.
PATF's Programs

- Information and assistance about assistive technology, funding resources and vendors
- Consumer loans for the purchase of assistive technology
- Financial education for people with disabilities

Mini-Loan Program

Mini-Loan Program: $100 to $1,500 at 0% interest. $20/month minimum payment.
